

Welcome to the fifteenth edition of the Turolla quarterly newsletter. Well into the Summer Season and with our new world-class factory in Castel San Pietro up running at full speed, we are continuing our efforts to build a strong and solid position in the market place for Turolla. As such you can already now start to get ready for some exciting news during the next quarters concerning products and events – and it will continue hereafter as well!

Supporting the above you will find additional news related to our organisation, the scaling-up of technical support, the Grand Opening Event of our new plant and updates regarding technical literature concerning our new Cast Iron program, the Cascade and the Dolomites series.

Finally, as always, your valuable feedback is very much appreciated and welcomed – because your opinion matters!

So, for the next five “reading-minutes” – enjoy!

Best regards, Ulrik Krag - Manager Partner Companies Europe

New people on-board

It is our clear mission to constantly upgrade our technical support department and provide you, our Partners, with a strong and very competent technical support.

And by doing this, we believe we can provide you with the needed support that helps differentiate positively - both you and us together in the market place.

Therefore, we are very happy to announce and welcome a new member on-board.

Mr. Paolo Matera

Mr. Paolo Matera will be our new team member and will take on the position as Product Application Engineer in our technical support department.

Mr. Matera has more than 15 years of work experience in the hydraulic field, starting in Lamborghini Oleodinamica Spa and the last 13 years in HP Hydraulic Spa (Bondioli & Pavesi Group) as chief engineer of their gear products.

Also, Mr. Matera holds a master's degree in Mechanical Engineering from the University of Bologna.

Mr. Paolo Matera will be working from our new facility in Castel San Pietro.

Grand Opening of New Plant

Less than one year after the first steps were initiated to transfer the two production sites in Europe, Povazska and Bologna, into one, a Grand Opening Event was held to celebrate the completion and start-up of our new world-class factory in Castel San Pietro.

Official Cutting the ribbon to mark the Grand Opening of Turolla's new facility. From left, Mr. Riccardo Carra, Vice President & General Manager, Turolla; Mr. Fausto Tinti, Mayor of Castel San Pietro Terme; and Mr. Niels B. Christiansen, Danfoss CEO.

The event was also a great opportunity to invite our Turolla Partners to both celebrate, as honoured guests, and connect with the people behind the brand, Turolla.

Picture from the Grand Opening of Turolla's new facility – the main entrance.

The new site is now full operational and up-to-speed. And as part of the global footprint of Turolla the new plant will become an important asset for regaining our well-known and first-in-class delivery performance and a support platform for the near-future growth strategy of the company.

New Cast Iron catalogues on-line

You may already have noticed it when visiting our web page for latest news, if not, we encourage you to do so, since we are now ready with brand new electronic catalogues covering our new Cast Iron series Group 3 of the Cascade and the Dolomites.
