

Welcome to the eighteenth edition of the Turolla quarterly Newsletter. Well into the Spring Season we are now approaching pole position, ready to take full advantage of our strong technology-driven platform. Already at the upcoming BAUMA exhibition in Munich this month you will see and experience the outcome of our efforts, as well as get an insight of what's in the pipeline for the near-future. The direction is clear and our dedication to bring Turolla forward in the market place is irreversible.

In this edition you will find latest news concerning achievements in our new plant, the upcoming BAUMA event, a nice celebration, our homepage and latest expansion of our European Partner Network.

And, as always, your valuable feedback is very much appreciated and welcomed – because your opinion matters!

So, for the next five “reading-minutes” – enjoy!

Best regards, Ulrik Krag - Manager Partner Companies Europe

New Footprint Achievements

As you may recall from last edition, our operations in Castel San Pietro successfully passed the external DNV Business Assurance Audit concerning compliancy to the new ISO 9001:2015 standard.

In parallel, an internal Danfoss Productivity Program (DPP) has been completed, with the main focus on continuous improvement.

The outcome of the project is already now emerging in terms of an improved and optimized planning and information flow sharing in our production.

Beside improved operator engagement, significantly improvements related to equipment efficiency and productivity have been realized – and efforts will continue to reflect and match the dynamic environment we operate in.

BAUMA 2016 – Hall A5 Booth 219

As you may already have noticed from many peoples' electronic signatures, the world's biggest Fair for construction equipment is about to take place – the BAUMA 2016.

Already now you should be prepared to get excited and enlightened when visiting our booth.

An enlarged product portfolio, innovative solutions and latest news regarding our quiet technology – the *shark*® – together with support and documentation material will be displayed at the booth.

We hope to have awoken your curiosity and welcome you to visit our booth in Hall A5 – Booth 219.

Nice News - CI-D series

On March 23rd we celebrated the 1.000.000th D-Pump produced in Ames, together with the lucky owner of it.

News on the Homepage

Like always, we strongly encourage you to frequently consult our homepage for product relevant news and topics on new emerging technologies.

www.turollaocg.com

Right now you will discover, that the Turolla *shark*® low noise Group 2 pump is now ready and a comprehensive catalogue can be retrieved from our website.

New Partner Distributor joining

Rep. of Ireland – Pressure Hydraulics Cork (PHC) has just been welcomed into our strong European Partner Network.

With more than 20 years of experience within various industries, PHC has obtained a well-proven competence base and is recognized for their customer orientated, proactive approach in the market place.

From their two sites, Cork and Carlow, PHC will cover the Irish market with Turolla products and solutions.

Enjoy the Spring Season
